

When it comes to electricity and natural gas,  
how safe is your home?

|                                                                                                                                                                                       | True                     | Needs fixing             |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------|--------------------------|
| 1. Electric outlets are not overloaded with lots of plugs.                                                                                                                            | <input type="checkbox"/> | <input type="checkbox"/> |
| 2. Electric cords are in good condition and do not run under rugs or furniture legs.                                                                                                  | <input type="checkbox"/> | <input type="checkbox"/> |
| 3. Electric appliances are used away from water.                                                                                                                                      | <input type="checkbox"/> | <input type="checkbox"/> |
| 4. There is at least one multipurpose fire extinguisher in your home, preferably in the kitchen.                                                                                      | <input type="checkbox"/> | <input type="checkbox"/> |
| 5. Safety caps are kept in outlets when small children are around.                                                                                                                    | <input type="checkbox"/> | <input type="checkbox"/> |
| 6. Small appliances are turned off and/or unplugged when people leave home.                                                                                                           | <input type="checkbox"/> | <input type="checkbox"/> |
| 7. All extension cords, lights, and appliances used outdoors are labeled for outdoor use.                                                                                             | <input type="checkbox"/> | <input type="checkbox"/> |
| 8. Small children play in areas away from the natural gas range and all natural gas appliances.                                                                                       | <input type="checkbox"/> | <input type="checkbox"/> |
| 9. Flammable objects are stored away from the natural gas water heater and furnace, and away from electrical appliances that can get hot, such as heaters, light bulbs, and toasters. | <input type="checkbox"/> | <input type="checkbox"/> |
| 10. The flame on your natural gas range is steady and blue.                                                                                                                           | <input type="checkbox"/> | <input type="checkbox"/> |
| 11. The natural gas oven or gas range is used only for cooking, not to heat the room or dry clothes.                                                                                  | <input type="checkbox"/> | <input type="checkbox"/> |
| 12. Carbon monoxide alarms are installed and used per manufacturer's instructions.                                                                                                    | <input type="checkbox"/> | <input type="checkbox"/> |
